TECHNICAL DATA SHEET

FILTER

Article number: 48400; 48410

Intended use: Car refinishing Product/Repair and Finish

Product characteristics: Chamäleon Filters are extremely fine meshed nylon / cotton or rather nylon paint and lacquer strain. For fast and efficient straining of various paint and lacquer materials. Chamäleon Filters are available in the following mesh widths, 190 μ nylon for all solvent-based paints and in 125 μ nylon for water-thinnable paints. The use of these special nylon filters assures absolute fibre-free straining of all paints and lacquers, before application, and facilitates a fast and high quality finish.

Technical characteristics:

- 125 μ nylon paint strainer for water- thinnable paint systems
- 190 μ nylon paint strainer for all solvent-based paint systems

Date: 08, February 2014

This release replaces all eventually earlier issued versions.
