TECHNICAL DATA SHEET *Date of issue 07.02.2018*

Nitrile gloves

Article number: 48801, 48802, 48803

Product Description:

The Chamäleon Nitrile Gloves are very flexible, silicone free, and un-powdered. These disposable gloves are a universal-fit and can be worn on the left as well as the right hand. They have solvent resistance and prevent many kinds of skin irritation, even latex intolerance. The special structure on the fingertips, together with the perfect, seamless fit, ensure that these gloves offer a secure grip while leaving the fingers sensitive to touch. This is very important when doing delicate work, for example; spray-painting in a workshop or handling syringes (needles) in a hospital.

Technical Data:

- EN 455-1:2000
- EN 455-2:2009 + A1:2011
- powder-free nitrile gloves for protection against skin irritation
- increased solvent resistance
- extremely flexible, perfect fit and excellent comfort
